Muhammad Fahad Saeed

Full-Stack Developer | React, Node.js, JavaScript | MSc Data Science & AI

Rotherham, South Yorkshire, UK | 07506 979950 | imfahadsaeed077@gmail.com

LinkedIn: linkedin.com/in/fahad-saeed-261755251

Right to work: Full-time UK right to work (Graduate visa); no sponsorship required until December 2028

PROFILE

Full-stack developer and MSc Data Science and Artificial Intelligence graduate (Sheffield Hallam University, 2026) with part-time freelance experience (2022 – 2025) building and deploying responsive websites and web applications for international clients. Works across the MERN stack (MongoDB, Express.js, React, Node.js) and Next.js, delivering REST APIs and booking, payment and enquiry features from requirements gathering through to deployment and ongoing support. Applies Python and machine learning in practice, including an explainable AI credit-decision application built with XGBoost, SHAP, LIME, DiCE, FastAPI and Next.js. Seeking a graduate or junior full-stack, React/Node.js or data/AI role in the UK.

TECHNICAL SKILLS

Languages: JavaScript, Python

Front end: React, Next.js, responsive web development

Back end: Node.js, Express.js, REST APIs, FastAPI

Databases: MongoDB, MySQL, SQLite

Data science & AI: Machine learning, XGBoost, explainable AI (SHAP, LIME, DiCE), Excel

Tools & practices: Git, testing, deployment, website performance optimisation, SEO

Professional: Requirements gathering, client communication, project coordination, problem-solving

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer (Freelance, part-time) | Self-employed | Remote 2022 – 2025

Alongside university studies

- Built and deployed responsive websites and web applications for international clients using React, Next.js, Node.js, Express.js, MongoDB and REST APIs, including booking, payment and enquiry features.
- Owned each project end to end – requirements, implementation, testing, deployment, optimisation and ongoing technical support – working directly with clients to translate business objectives into working features.
- Optimised sites for usability, performance and SEO, and managed client communication and project updates throughout delivery.

  Selected client work:

  - **Island Express Movers** – lead-generation website with a cost calculator and online quote-booking workflow for customer enquiries.
  - **IHA Property Consultancy and MHDAM Asset Consultancy** – consultancy websites presenting sector services, case studies and client enquiry routes.
  - **OffshoreCV and Vet4Vet Foundation** – service- and mission-focused websites with clear user journeys, resources, and enquiry or donation routes.

Front-End Web Developer Intern | Power Soft 19 | Lahore, Pakistan Jun 2022 – Sep 2022

- Developed responsive user interfaces for corporate web projects, collaborating with designers and senior developers.
- Debugged front-end issues across company web projects.

Other experience 2022

- **Virtual Assistant, Infinite Minds Academy (remote):** website administration, student database operations, course scheduling and digital communications.
- **Social Media Manager, UK-based content creator (remote):** publishing workflows, content schedules and brand consistency.

PROJECTS

Explainable AI Application for Automated Credit Decisions

Python, XGBoost, SHAP, LIME, DiCE, FastAPI, Next.js

- Built a machine-learning application that predicts credit decisions with XGBoost, explains predictions with SHAP and LIME, and generates counterfactual insights with DiCE, prioritising interpretable, actionable outputs.
- Served the model through FastAPI backend services and a Next.js interface, making technical outputs accessible to end users.

EDUCATION

MSc Data Science and Artificial Intelligence | Sheffield Hallam University, UK — Sep 2025 – Sep 2026

- Applied Python, machine learning, explainable AI and FastAPI in practical work.

BS Computer Science | University of Sahiwal, Pakistan | GPA 3.35 — 2020 – 2024

CERTIFICATIONS

- IBM React Developer Certification
- Meta Professional Front-End Web Development
